

Library Report to the City Council – March 2020

Sensory Toys

Staff picked out some sensory toys for the children’s area. First, we made a Sensory Bin filled with rice and added measuring cups, funnels, and knobby eggs.

Next, we ordered a Bubble Tube. People with Sensory Processing Disorder (SPD) get a positive response when watching bubble tubes in action, since they provide a tracking activity that helps to improve visual development, color recognition, visual perception and communications skills. The bubble tubes themselves can promote and enhance a person’s level of relaxation, creating a calming effect.

Hebron: A Documentary

Thursday, March 12 6:00 p.m.

Yousef Natsheh is a Palestinian filmmaker and human rights defender. Rachel is a peace activist from the United States. Together they have been serving with the Christian Peacemaker Teams in al-Khalil (Hebron) since 2013. Natseh's film examines the extent to which human rights are realized in a Palestinian community under Israeli occupation. The screening will be followed by a presentation and Q&A about the situation on the ground, what daily life is like under occupation, and Palestinian resistance to Israeli settlements.

Family Story Time

Tuesday, March 17 6:00pm
